FOOD SAFETY POLICY

TO WHOM IT MAY CONCERN

OVODAN EGG GROUP produces quality:

The quality of the finished product must, through purchasing, production, sales and marketing, be of such a standard that the products in all areas live up to the requirements of the law, as well as the customers' reasonable and justified expectations. Through the daily routines, it is ensured that work is carried out towards this goal.

Quality through food safety:

In the production of food, safety is a very important aspect of quality. Therefore, we work at all levels, from procurement to production and sales, with the implementation of comprehensive, preventive programs based on HACCP principles. These programs include all legal requirements but are not limited to these.

In addition to the ongoing development of our food safety, it is also important for us to participate in an open communication on various topics. That is why we are very happy to make ourselves available to our customers in relation to all types of questions.

The quality depends on each individual employee:

Everyone contributes to the quality in their respective areas. The quality comes from all areas of work, not only in production but also administration and distribution.

BRC systematic food safety:

In order to be able to offer only the highest quality products to our customers, OVODAN EGG GROUP has for 10 years and more met the requirements of the BRC* Food Safety System. Our certification emphasizes that OVODAN EGG GROUP strives to achieve the highest possible product quality and food safety. The overall aim of food safety policy is to ensure a high level of protection of human health associated with the use of our products, in accordance with both the legal and regulatory requirements of each country.

- We only use approved, high-quality raw materials
- Safe production process
- Permanent quality control throughout the process
- Test in own and external laboratory of raw materials and finished goods

This helps to ensure that you as a consumer get products of the highest quality. For further information, please do not hesitate to contact us.
